mutton shall from then forward take near the vegetable market was recognized so far back as 1901 (vide office notes to mb: 216-05) and as a result of fruitless correspondence on the matter the President was requested in December 1905 to take early steps for the construction of fresh stalls near the new slaughter house as suggested by Col Smyth or in some other and more eligible locality or localities in the City. The residents of Telegraph having subsequently complained that the usual licence granted for opening a mutton stall in their locality had been withheld by the President on the complaint of the stall holders near the vegetable market that their trade would suffer if other stalls were opened elsewhere in the City, three petitions were sent to the President for disposal along with the general question of removing the present stalls & locating them in more suitable [illegible]. shall have been passed. The order of December 1905 required immediate action on the part of the President. Were the delay could have been avoided by detaining all work of the Imperial Office to take copies of the many correspondence from this Secretariat files. May a copy of the aforesaid order be sent both to the President with a request to take action accordingly at once & forward the result before the end of August 1906? In the arrangements to be performed by the President the Telegraph will very probably have a fruitful share.

SIR,

I have the honour to state that a dead rat having been found in the record-room of this Office, it was disinfected on 20th September 1907 and a few days later, it was disinfected a second time since a dead rat was again found on 11th October 1907

While removing the furniture and the almirahs with records for exposure to the sun and air from the record-room during disinfection, the file of papers relating to the removal and the re-construction of the existing mutton stalls elsewhere appears to have been mislaid Attempts are being made to trace out the file in question and as soon as the same is found a detailed report will be submitted on the points raised in the marginally noted communications of Government

Sir,

Ml 217-06

Adverting to the correspondence ending with your docket No. 5438/Ml. 217-06-13 dated the 5th December 1908, in the matter of shifting the Fish and Mutton Stalls from their present situation and re-building them in some more suitable locality, I have the honour to state that the site and buildings of the Old Slaughter House and the Fish and Mutton Stalls are estimated by some of the leading merchants of the City to fetch if sold by auction, between eight and ten thousand rupees. The Executive Engineer of the Bangalore Division has also valued it at Rs. 9,586/-.

2). As to the re-building of the Fish and Mutton Stalls in some other place and selection of a suitable site therefor, I herewith submit copies of the Health Officer's report on the question and of the Council's

Resolution thereon dated the 23rd Ultimo. Most of the members of the Council were of opinion that the location of those stalls near the New Slaughter House was desirable for many reasons. It is, however, most unsuited for the purpose in my opinion. They did not also approve of the Health Officer's suggestion of constructing them on the North of the Hoskota Road opposite to the New Slaughter House. That Officer, who disapproved the ground near the Slaughter House owing to its low situation, has, therefore, been asked to select another better site. Until an eligible site is fixed upon, an estimate for the erection of the Stalls cannot be made out.

3). A further report with an estimate of cost will be made in due course after the selection of a suitable place and after it is finally approved by the Council.

I have the honour to be

Memo No 195 dated the 20th November 1909 from the Health Officer, Bangalore City

- - - - - - - - -

Before offering any opinion on the suitability or otherwise of the plan sent, the site on which the intended structure is to be erected has to be determined, which duty it is believed devolves on the Municipal Board Considered from the point of convenience, the meat market is best located near the Slaughter House where there is extensive land available for the purpose But unfortunately it is water-logged and unless the required portion of the ground be raised to the level of the road embank--ment, the market, if constructed, would be a source of danger to the health of the public that resort thereto Besides that not far away from it, there is another bit of ground on the opposite side of the road It is on a much higher level with a gentle slope But it appears to be private land and will have to be acquired in the event of being approved

With regard to the plan sent, it seems that the stalls in--stead of being arranged in the manner done thereir might be located centrally when there will be economy of space and money Now since the new Engineer is come, he may be consulted for the preparation of a suitable design for the purpose in lieu of that prepared by an Overseer The plan sent is herewith returned
